## GLORIA CRUDGINGTON WORKS HARD FOR MONROVIA

When Monrovia's packed City Hall back in 1999 to stop development of our hillsides, Gloria and Cleve stepped up to chair the successful "Yes on Measures A & B" campaign to save our hillsides from housing development. Gloria chaired the Wilderness Preserve Steering Committee, lobbying Sacramento for matching money as the representative of Monrovia's grassroots movement, and negotiating with landowners. The Crudgingtons received Monrovia's Iris Award (Citizen of the Year) in 2003 for their efforts on Monrovia's behalf. Gloria was appointed to the Community Services Commission in 2003, working on the city's Resource Management Plan for Canyon Park and the Wilderness Preserve. Gloria was honored for her 14 years of service to wilderness preservation with a regional Commissioner's award in 2014.

Now we have new threats to Monrovia's unique charm: Arcadia style-McMansions aren't compatible with our neighborhoods. And we have at least \$38 Million in deferred maintenance without a plan in place to fix it. Now Gloria's ready to meet these challenges. Gloria believes in Monrovia. And as a member of City Council, she will continue to work hard to preserve the charm that makes Monrovia unique.
